Adult Carers Advice & Support - dos@reading.gov.uk

We are working to help make the move from children's to adults' services as seamless as possible for young people with SEND. As well as meetings to explain the process at key stages, we have produced a booklet to help both young people and their parent carers understand the process. In addition to this, we have easy-read guides and we are working on a video and other resources to make the information as accessible as possible.
