

Careers News Blast

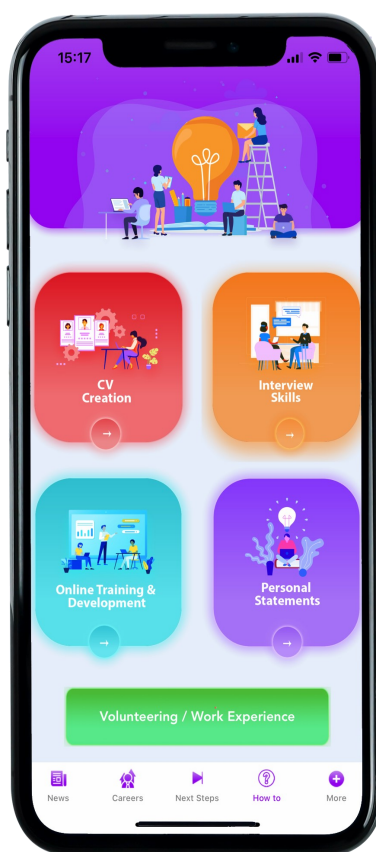

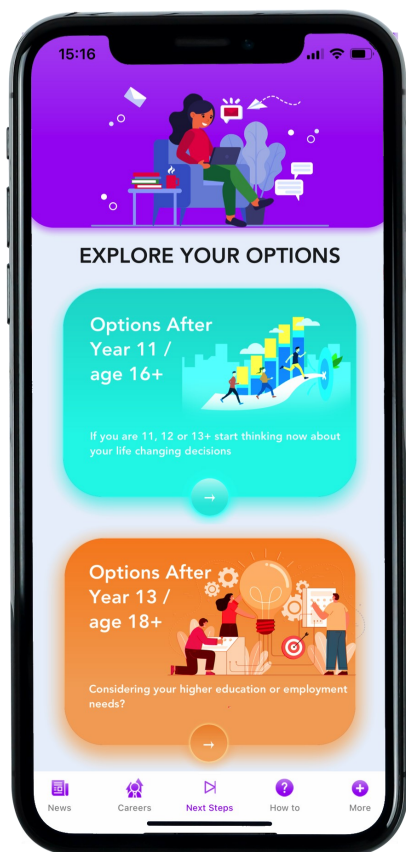

May 2023

The free 'One Stop' resource for career planning and exploration...

The Qdos Careers App is a 'one stop' research resource providing information on education pathways and career choices and career options, together with tools, career advice and preparation for employment

The App is an impartial tool to support **young people, adults, parents/carers, careers leaders and educators**, where they can access over 250 national authoritative resources

What you will find on the user-friendly App:

- **News** on national and regional summer activities programme
- **Careers information** (by job, by sector, inspiration tools and quizzes to see what suits you best)
- **Education route mapping**
- **Job market navigation** (including an interactive widget referencing labour market information)
- **Tools and guides to prepare for jobs and training applications** (e.g. internships, careers events calendar and online guides)
- **Support Resources** - information on the range of organisations that offer useful information, advice, and support for health and well-being
- **My Profile** - where you store information and articles that are useful to you – saving information privately, to your device

Independent Careers Advice

We welcome back Romana from Elevate on 10th & 11th of May who will be holding individual Careers Advice & Guidance meetings with our year 10 students in Purple and Yellow pathways

Students will focus on organising their future based on their aspiration, skills and natural talents.
